

Freshmen Week 2023

This year there will again be a Freshmen Week (OE). The OE is a period of one week directly at the beginning of your studies in which you get to know the university and your fellow students. We, your student representatives, will organize the OE for you.

Signal Messenger Group Link

This year we created a signal group for you. There you can socialize with the fellow freshmen before the OE starts and we will keep you up to date about the upcoming events. You are welcome to join.

Dates

The (highly recommended) [preparatory course](#) starts on 2nd October at 09 o'clock. Locations can be found following the link. The course will take place until the OE starts. We particularly recommend the IT introduction where you learn everything about our WIFI and printing.

On Friday the 06.10.2023 we will meet for the first time at the Inauguration Ceremony. In the OE week, starting from 16.10.2023, there will be no lectures for you yet. It is filled with events of all kinds. Among other things, there will be a rally through Harburg, a campus tour and a nerdBar, so you can get to know the university grounds, your surroundings and your new fellow students. All our events will take place on the campus of the TU Hamburg in Hamburg-Harburg. The best way to get there by public transport is to take the S3 to Harburg-Rathaus or Heimfeld. Here is the map of the university, so you can always find us. 

On October 23rd, real life begins: Your regular lectures begin (exercises usually don't start until a week later).
