Free Software for Students

Campus licenses

The TU already has student licenses for many programs and software suites. That means you can use them for free. We have selected a small selection of programs for you:

- MATLAB
- Maple
- Solidworks

For a complete overview take a look at the Website of the RZ (German). Here you will find a current overview, as well as instructions on how to retrieve the licenses.

Other Software

Many companies offer their software free of charge for students. We have picked out a few especially useful things and listed them below.

Microsoft Office

What is included:

- Online versions of the Office products
- 1 TB of OneDrive cloud storage

Where:

- Register with your TUHH Mail here

GitHub Education

What is included:

- GitHub Pro
- AWS Educational Account
- Microsoft Azure Education
- Additional development tools
- A full list can be found here

Where:

- GitHub Student Developer Pack

Microsoft Azure Education

What is included:

- Various Azure cloud services
- Various Microsoft products (Windows 10 Education, Visual Studio, Windows Server etc.)

Where:

- Either via the GitHub Student Developer Pack
- Or register with Azure directly
